10. NOTES

10.1. Design restrictions/precautions

If used for outdoor applications, be sure to apply suitable supplementary optical filter, drip-proof and anti-dew construction. This sensor is designed for indoor use.

In cases where secondary accidents due to operation failure or malfunctions can be anticipated, add a fail safe function to the design.

10.2. Usage restrictions/precautions

To prevent sensor malfunctions, operational failure or any deterioration of its characteristics, do not use this sensor in the following, or similar, conditions.

A. In rapid environmental temperature changes
B. In strong shock or vibration.
C. In a place where there are obstructing materials(Glass, Fog, etc) through which infrared rays cannot pass within detection area.
D. In fluid, corrosive gases and sea breeze.
E. Continual use in high humidity atmosphere.
F. Exposed to direct sun light or headlights of automobiles.
G. Exposed to direct wind from a heater or air conditioner.

10.3. Assembly restrictions/precautions

Soldering

A. Use soldering irons when soldering .
B. Avoid keeping pins of this sensor hot for a long time as excessive heat may cause deterioration of its quality.(Ex. Within 5 sec. at 350 deg.C)

Washing

A. Be sure to wash out all flux after soldering as remainder may cause malfunctions.
B. Use a brush when washing . Washing with an ultrasonic cleaner may cause operational failure.

10.4.Handling and storage restrictions/precautions

To prevent sensor malfunctions, operational failure, appearance damage or any deterioration of its characteristics, do not expose this sensor to the following or similar handing and storage conditions.

A. Vibration for a long time.
B. Strong shock
C. Static electricity or strong electromagnetic waves.
D. High or Low temperature and humidity for a long time.
E. Corrosive gases or sea breeze.
F. Dirty and dusty environments that may contaminate the optical lens.
10.5.Restrictions on product use

The product described in this document shall not be used or embedded to any downstream products of which manufacture, use and/ or sales are prohibited under any applicable laws and regulations.
Sensor troubles resulting from misuse, inappropriate handling or storage are not the manufacturer`s responsibility.

In the infrared sensor product specifications as shown in the standard premise, Shanghai Nicera Sensor company reserves the right to part material change.
