INDUCTORS

⊗TDK

Inductors for power circuits Wound ferrite SLF-H series (for automotive)

FEATURES

O Magnetic shield type wound inductor for power circuits.

O Product lineup allows for various usages.

○ Operating temperature range: -40 to +125°C (including self-temperature rise)

APPLICATION

Automotive-related equipment (ECM, airbags, headlights, electronic power steering, meters, ABS, other)
 Application guides: <u>Automotive (xEV)</u>

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using this products.

 The storage period is less than 6 months. Be sure to follow the storag less). If the storage period elapses, the soldering of the terminal electrodes 				
 Do not use or store in locations where there are conditions such as ga 				
 Before soldering, be sure to preheat components. 				
The preheating temperature should be set so that the temperature d does not exceed 150°C.	lifference between the solder temperature and chip temperature			
Soldering corrections after mounting should be within the range of the conditions determined in the specifications. If overheated, a short circuit, performance deterioration, or lifespan shortening may occur.				
	When embedding a printed circuit board where a chip is mounted to a set, be sure that residual stress is not given to the chip due to the overall distortion of the printed circuit board and partial distortion such as at screw tightening portions.			
Self heating (temperature increase) occurs when the power is turned ON, so the tolerance should be sufficient for the set thermal design.				
 Carefully lay out the coil for the circuit board design of the non-magner A malfunction may occur due to magnetic interference. 	tic shield type.			
\bigcirc Use a wrist band to discharge static electricity in your body through the	e grounding wire.			
\bigcirc Do not expose the products to magnets or magnetic fields.				
\bigcirc Do not use for a purpose outside of the contents regulated in the deliv	very specifications.			
 The products listed on this catalog are intended for use in general ement, home appliances, amusement equipment, computer equipment ment, industrial robots) under a normal operation and use condition. The products are not designed or warranted to meet the requirements ity require a more stringent level of safety or reliability, or whose failure person or property. If you intend to use the products in the applications listed below or if y set forth in the each catalog, please contact us. 	nt, personal equipment, office equipment, measurement equip- of the applications listed below, whose performance and/or qual- e, malfunction or trouble could cause serious damage to society,
