

2-Electrode Gas Discharge Tube (GDT)

UN2E8 Series

Description

Gas discharge Tubes (GDT) are classical components for protecting the installations of the telecommunications. It is essential that IT and telecommunications systems -with their high-grade but sensitive electronic circuits - be protected by arresters. They are thus fitted at the input of the power supply system together with varistors and at the connection points to telecommunication lines. They have become equally indispensable for protecting base stations in mobile telephone systems as well as extensive cable television (CATV) networks with their repeaters and distribution systems.

These protective components are also indispensable in other sectors, In AC power transmission systems, they are often used with current-limiting varistors, In customer premises equipment such as DSL modems, WLAN routers, TV sets and cable modems In air-conditioning equipment, the integral black-box concept offers graduated protection by combining arresters with varistors, PTC, diodes and inductor.

Features

- u Non-Radioactive
- u RoHS compliant
- u High insulation resistance
- u Excellent response to fast rising transients
- u Ultra low capacitance
- u 10~20KA surge capability tested with 8/20µs pulse as defined by IEC 61000-4-5

Applications

- u Communication lines and equipment
- u CATV equipment
- u Test equipment
- u Data lines
- u Power supplies
- u Instrumentation circuits
- u Medical electronics
- u ADSL equipment
- u Telecom SLIC protection

AGENCY	AGENCY FILE NUMBER
	E341061

Product Characteristics

Materials	Leaded Device: Nickel-plated with Tinned wires Surface Mount: Dull Tin-plated	
Product Marking	UNION XXXM/H XXX -Nominal voltage M - 10KA H - 20KA	
Glow to Arc Transition Current	< 0.5 Amps	
Glow Voltage	~60 Volts	
Storage and Operational Temperature	-40 to +90°C	
Weight	UN2E8-XXXML	~1.5g
	UN2E8-XXXHL	~1.6g
	UN2E8-XXXM/H	~1.35g
	UN2E8-XXXM/HSMD	~1.5g
Climatic category (IEC 60068-1)	40/ 90/ 21	

2-Electrode Gas Discharge Tube (GDT)

UN2E8 Series

Dimensions Unit: mm

Axial Leaded Devices (UN2E8-XXXML)

Without wire Devices (UN2E8-XXXM/H)

Axial Leaded Devices (UN2E8-XXXHL)

Surface Mount Devices (UN2E8-XXXM/HSMD)

Notes:

- 1). Terms in accordance with ITU-T K.12 and GB/T 9043-2008
- 2). At delivery AQL 0.65 level II, DIN ISO 2859

2-Electrode Gas Discharge Tube (GDT)

UN2E8 Series

Electrical Rating

Item	Test Condition / Description	Requirement
DC Spark-over Voltage	The voltage is measured with a slowly rate of rise $dv / dt=100V/s$	To meet the specified value
Impulse Spark-over Voltage	The maximum impulse spark-over voltage is measured with a rise time of $dv / dt=100V/\mu s$ or $1KV/\mu s$	
Insulation Resistance	The resistance of gas tube shall be measured each terminal each other terminal, please see above spec.	
Capacitance	The capacitance of gas tube shall be measured each terminal to each other terminal. Test frequency :1MHz	
Nominal Impulse Discharge Current	The maximum current applying a waveform of 8/20 μs that can be applied across the terminals of the gas tube. One hour after the test is completed, re-testing of the DC spark-over voltage does not exceed $\pm 30\%$ of the nominal DC spark-over voltage. Dwell time between pulses is 3 minutes. 	
Nominal Alternating Discharge Current	Rated RMS value of AC current at 50Hz, 1 sec. 10 times. Intervals: 3min. The DC spark-over voltage does not exceed $\pm 30\%$ of the nominal DC spark-over voltage. $IR > 10^8 ohms$.	

Recommended soldering profile

Soldering Parameters - Hand Soldering

Solder Iron Temperature: 350°C $\pm 5^\circ C$
 Heating Time: 5 seconds max.

Packaging Information (Continue) Unit: mm

- u Gas discharge tubes (GDT) must not be operated directly in power supply networks.
- u Gas discharge tubes (GDT) may become hot in case of longer periods of current stress (danger of burning).
- u Gas discharge tubes (GDT) may be used only within their specified values. In the event of overload, the head contacts may fail or the component may be destroyed.
- u Damaged Gas discharge tubes (GDT) must not be re-used.
