### **FEATURES**

• High

- 125 °C T<sub>J</sub> operation (V<sub>B</sub> < 5 V)</li>
- · Very low forward voltage drop

high

for

strength and moisture resistance

 High frequency operation purity,

- COMPLIANT HALOGEN FREE
- · Guard ring for enhanced ruggedness and long term reliability

enhanced

temperature

- Designed and qualified according to JEDEC<sup>®</sup>-JESD 47
- Material categorization: for definitions of compliance please see www.vishay.com/doc?99912

### DESCRIPTION

encapsulation

This center tap Schottky rectifier has been optimized for very low forward voltage drop, with moderate leakage. The proprietary barrier technology allows for reliable operation up to 125 °C junction temperature. Typical applications are in switching power supplies, converters, freewheeling diodes, and reverse battery protection.
