\*\* See note under Electrical Characteristics by item

For recommended fuse accessories for this product series, see '<u>Recommended Accessories</u>' section.

#### Description

The 3AG Slo-Blo<sup>®</sup> fuse solves a broad range of application requirements while offering reliable performance and cost-effective circuit protection.

The fuse catalog number with the suffix "ID" instantly identifies itself upon opening by showing a discoloration of its glass body. Guesswork and time consuming circuit testing are eliminated. This unique design offers the same quality performance characteristics as the standard 3AG Slo-Blo® Fuse design.

#### Features

- Conforms to UL/CSA/ NMX 248-1 and UL/CSA/ NMX 248-14
- Available in cartridge and axial lead format and with various forming dimensions
- RoHS compliant and Lead-free

RoHS 🔊 🖲 🚯 🖓 🍄 🕻 🧲

• Conforms to DENAN's Appendix 3

#### Applications

Used as supplementary protection in appliance or utilization equipment to provide individual protection for components or internal circuits.

#### **Electrical Characteristics by Series**

| % of Ampere Rating | Ampere Rating | <b>Opening Time</b>       |  |  |
|--------------------|---------------|---------------------------|--|--|

\* For 313series, these ratings available with an indicating option. Add the "ID" designation to the series number. i.e. 313.500ID.

\*\* The 10A and 15A ratings are ratings are designed for special voltage requirement. For 10A, it is available as 250Vac rated and the part number is 0313010.MX250P

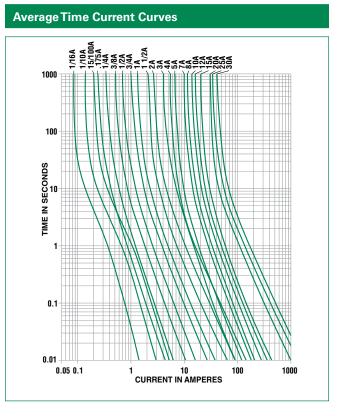

## **Axial Lead & Cartridge Fuses**

3AG > Slo-Blo® Fuse > 313/315 Series

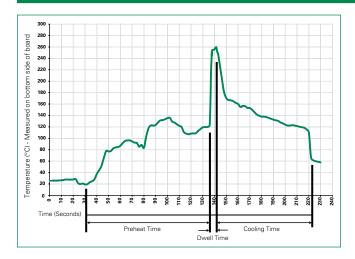

Note

Rerating depicted in this curve is in addition to the standard derating of 25% for continuous operation.

#### **Soldering Parameters - Wave Soldering**

#### **Recommended Process Parameters:**

| Wave Parameter                                       | Lead-Free Recommendation          |  |  |
|--|-----------------------------------|--|--|
| Preheat:<br>(Depends on Flux Activation Temperature) | (Typical Industry Recommendation) |  |  |
| Temperature Minimum:                                 | 100°C                             |  |  |
| Temperature Maximum:                                 | 150°C                             |  |  |
| Preheat Time:  | 60-180 seconds                    |  |  |
| Solder Pot Temperature:                              | 260°C Maximum                     |  |  |
| Solder Dwell Time:                                   | 2-5 seconds                       |  |  |

**Recommended Hand-Solder Parameters:** 

Solder Iron Temperature: 350°C +/- 5°C Heating Time: 5 seconds max.

#### Note: These devices are not recommended for IR or **Convection Reflow process.**

#### Packaging
