

## 600 Watt Surface Mount Transient Voltage Suppressor

Screening in  
reference to  
MIL-PRF-19500  
available

### DESCRIPTION

The MSMB 5.0A – MSMB 170CA series of surface mount 600 watt transient voltage suppressors provide a selection of standoff voltages ( $V_{wm}$ ) from 5.0 to 170 V. These high-reliability devices are available in either unidirectional or bidirectional versions. The SMBG Gull-wing design in the DO-215AA package is ideal for visible solder connections. The SMBJ J-bend design in the DO-214AA package allows for greater PC board mounting density. It is available with SnPb or RoHS compliant matte-tin plating.

**Important:** For the latest information, visit our website <http://www.microsemi.com>.
