STORAGE CONDITION

The temperature should be within $-40 \sim 105^{\circ}$ and humidity should be less than 75% RH. The product should be used within 6 months from the time of delivery.

ATTENTION REGARDING PCB BENDING

(a) PCB shall be designed so that products are not subjected to the mechanical stress for board wrapage. Product shall be located in the sideway direction to the mechanical stress.

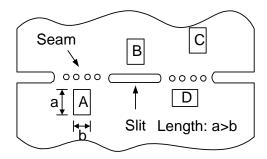

(Poor example)

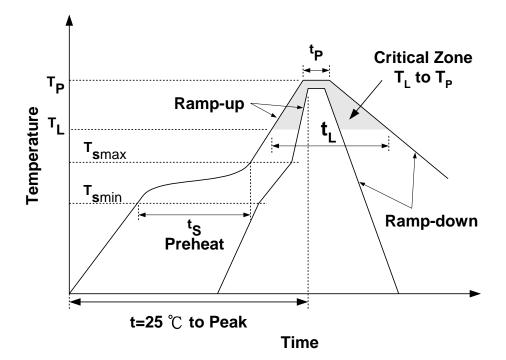

(Good example)

(b) Products (A,B,C,D) shall be located carefully so that products are not subjected to the mechanical stress due to warping the board. Because they may be subjected to the mechanical stress in order of A>C>B≒D.
