KIA78S05P~KIA78S24P

APPLICATION CIRCUIT

(1) STANDARD APPLICATION

D1 : Protection Diode High speed diode D1 should be connected as shown in the figure if the condition $V_{IN} < V_{OUT}$ might occur by surge voltage or power supply ON/OFF

R_{SD} : Power limiting resistor for large V_{IN} , resistor R_{SD} is needed to limit IC power dissipation

(2) A. CURRENT BOOST VOLTAGE REGULATOR

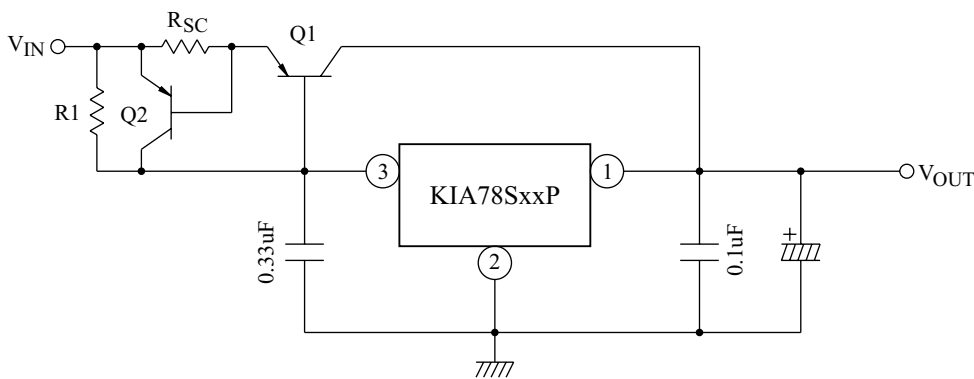

Heat sink is needed for Q1

$$R1 \leq \frac{V_{BE1}}{I_{B(MAX)}}$$

where, V_{BE1} : V_{BE} of external transistor Q1

$I_{B(MAX)}$: Quiescent current of IC

B. SHORT-CIRCUIT PROTECTION

$$R_{SC} = \frac{V_{BE2}}{I_{SC}}$$

where, I_{SC} : Short-Circuit current

(3) CURRENT REGULATOR

$$I_{OUT} = \frac{V_{OUT}}{R} + I_B$$

KIA78S05P~KIA78S24P

(4) VOLTAGE BOOST REGULATOR

$V_{OUT} = V_Z + V_{OUT} \text{ (of IC)}$
 A little of current in resistor R is needed.

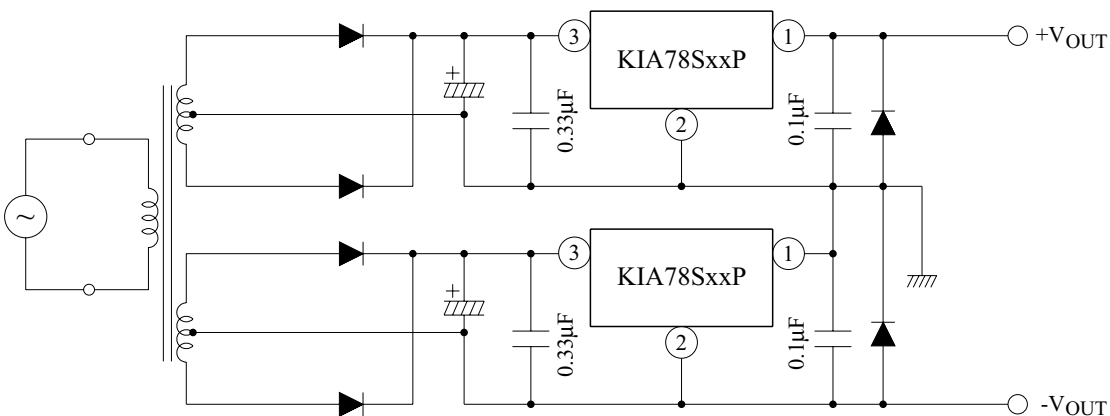

$$V_{OUT} = R2 \left(I_B + \frac{V_{OUT} \text{ (of IC)}}{R1} \right) + V_{OUT} \text{ (of IC)}$$

(5) NEGATIVE REGULATOR

(6) POSITIVE AND NEGATIVE REGULATOR

PRECAUTIONS FOR USE

When such a high voltage as exceeds 10V beyond the fixed output voltage (Typ. Value) of IC is applied to the output terminal of IC, the IC may be destroyed. In such a case, it is advised to prevent an excessive voltage from being applied to the IC by connecting a zener diode between the output terminal and the GND. Especially, in the current boost circuit as shown in example (2) of application circuits, an input voltage may be suddenly applied to the output terminal of IC in the form of steps, and that in case of light load, an excessive voltage may be transiently applied to the output terminal of IC: So that great care should be taken to this matter. In this case, in addition to the above, it may become necessary to consider such a countermeasure as the output capacitor in use is replaced with a capacitor of larger capacitance, or as R1 (a resistor for IC bias current) or bypass is replaced with a resistor of smaller resistance according to circumstances, or as the input voltage is gradually raised.
