- The products 100% Lead(Pb) and RoHS compliant.

Applications

- The AACT series can be used as a common mode filter for vehicle LAN system such as CANBUS and FlexRay.

Test Conditions

- All test data is referenced to 25°C ambient.
 - Operating temperature range -40°C to $+125^{\circ}\text{C}$ (Including self - temperature rise).
 - The part temperature(ambient + temp rise) should not exceed 125°C under worst case operating conditions.
- Circuit design, component placement, PCB trace size and thickness, airflow and other cooling provisions all affect the part temperature, part temperature should be verified in the end application.
