

# P1/P3 FLUIDIC CONTACT WITH VALVE

## Precision modular connectors to suit your application

Since its creation in Switzerland in 1946 the LEMO Group has been recognized as a global leader of circular Push-Pull connectors and connector solutions. Today LEMO and its affiliated companies, REDEL and COELVER, are active in more than 80 countries with the help of over 40 subsidiaries and distributors.

## Over 75000 connectors

The modular design of the LEMO range provides over 75000 connectors from miniature  $\varnothing$  3 mm to  $\varnothing$  50 mm, capable of handling cable diameters up to 30 mm and for up to 114 contacts. This vast portfolio enables you to select the ideal connector configuration to suit almost any specific requirement in most markets, including medical devices, test and measurement instruments, machinery, audio video broadcast, telecommunications and military.

## LEMO's Push-Pull Self-Latching Connection System

This self-latching system is renowned worldwide for its easy and quick mating and unmating features. It provides absolute security against vibration, shock or pull on the cable, and facilitates operation in a very limited space.

The LEMO self-latching system allows the connector to be mated by simply pushing the plug axially into the socket.

Once firmly latched, connection cannot be broken by pulling on the cable or any other component part other than the outer release sleeve.

When required, the connector is disengaged by a single axial pull on the outer release sleeve. This first disengages the latches and then withdraws the plug from the socket.

## UL Recognition

LEMO connectors are recognized by the Underwriters Laboratories (UL). The approval of the complete system (LEMO connector, cable and your equipment) will be easier because LEMO connectors are recognized.

## CE marking

CE marking  means that the appliance or equipment bearing it complies with the protection requirements of one or several European safety directives. CE marking  applies to complete products or equipment, **but not to electromechanical components, such as connectors.**

## RoHS

LEMO connector specifications conforms the requirements of the RoHS directive (2011/65/EU) of the European Parliament and the latest amendments. This directive specifies the restrictions of the use of hazardous substances in electrical and electronic equipment marketed in Europe.

## Product safety notice & disclaimers

Please read and follow all instructions specified on the last page or on our [website](#) carefully and consult all relevant national and international safety regulations for your application. Improper handling, cable assembly, or wrong use of connectors can result in hazardous situations.

LEMO products and services are provided "as is." LEMO makes no warranties or representations with regard to LEMO product & services or use of them, express, implied or statutory, including for accuracy, completeness, or security.

In no event shall LEMO be liable for any direct, indirect, punitive, incidental, special consequential damages, to property or life, whatsoever arising out of or connected with the use or misuse of LEMO's products.

# P1/P3 Fluidic contact with valve

The P1 fluidic contact is designed to fit multi fluidic connectors or hybrid fluidic/electrical connectors from 2B to 5B and 2K to 5K series. This new design includes a shut-off valve. It fits into all insert cavities that already accept the LEMO coaxial type «C» of contact. The P3 fluidic contact is designed to fit multi fluidic connectors of the 5B and 5K series.

Its main features are:

- contacts with shut-off valve
  - maximum working pressure 6 bars
  - stainless alloy body
  - after mounting on tube, the contact is installed in the main insulator and retained with a metallic clip.
- The contact is fitted with FPM o-ring, it can be used with liquids or gas.

## Part Section Showing Internal Components

## Technical Characteristics

### Material and Treatment

Components	Value
Body	Stainless steel
Valve	Alloy CuNiZn
Spring	Stainless steel
Clips	CuBe
O-ring	FPM

### Mechanical and Environmental

Characteristics	Value	Cont. type	Standard
Mating durability	1000 cycles	P1/P3	IEC 60512-5 test 9a
Temperature range	-20°C, +125°C	P1/P3	
Max. working pressure	6 bars	P1/P3	
Air flow rate at 6 bars	50 l/min	P1	
Water flow rate at 6 bars	0.80 l/min	P1	
Air flow rate at 6 bars	210 l/min	P3	
Water flow rate at 6 bars	4.20 l/min	P3	

**Note:** flow direction is always from female contact to male contact.

### Flow/pressure diagram P1 contact type

**Note:** test carried out with a 2 mm inner diameter tube.

### Flow/pressure diagram P3 contact type

## Model - Fluidic Contact Type

### P1 contacts

#### FGG.P1 Male fluidic contact with valve

Part number

**FGG.P1.150.AC**V

**Note:** Connectors are delivered without the P1 contacts.

#### EGG.P1 Female fluidic contact with valve

Part number

**EGG.P1.150.AC**V

**Note:** Connectors are delivered without the P1 contacts.

### P3 contacts

#### FGG.P3 Male fluidic contact with valve

Part number

**FGG.P3.300.AC**V

**Note:** Connectors are delivered without the P3 contacts.

### EGG.P3 Female fluidic contact with valve

Part number

**EGG.P3.300.AC**V

**Note:** Connectors are delivered without the P3 contacts.

## Recommended tubing/hose

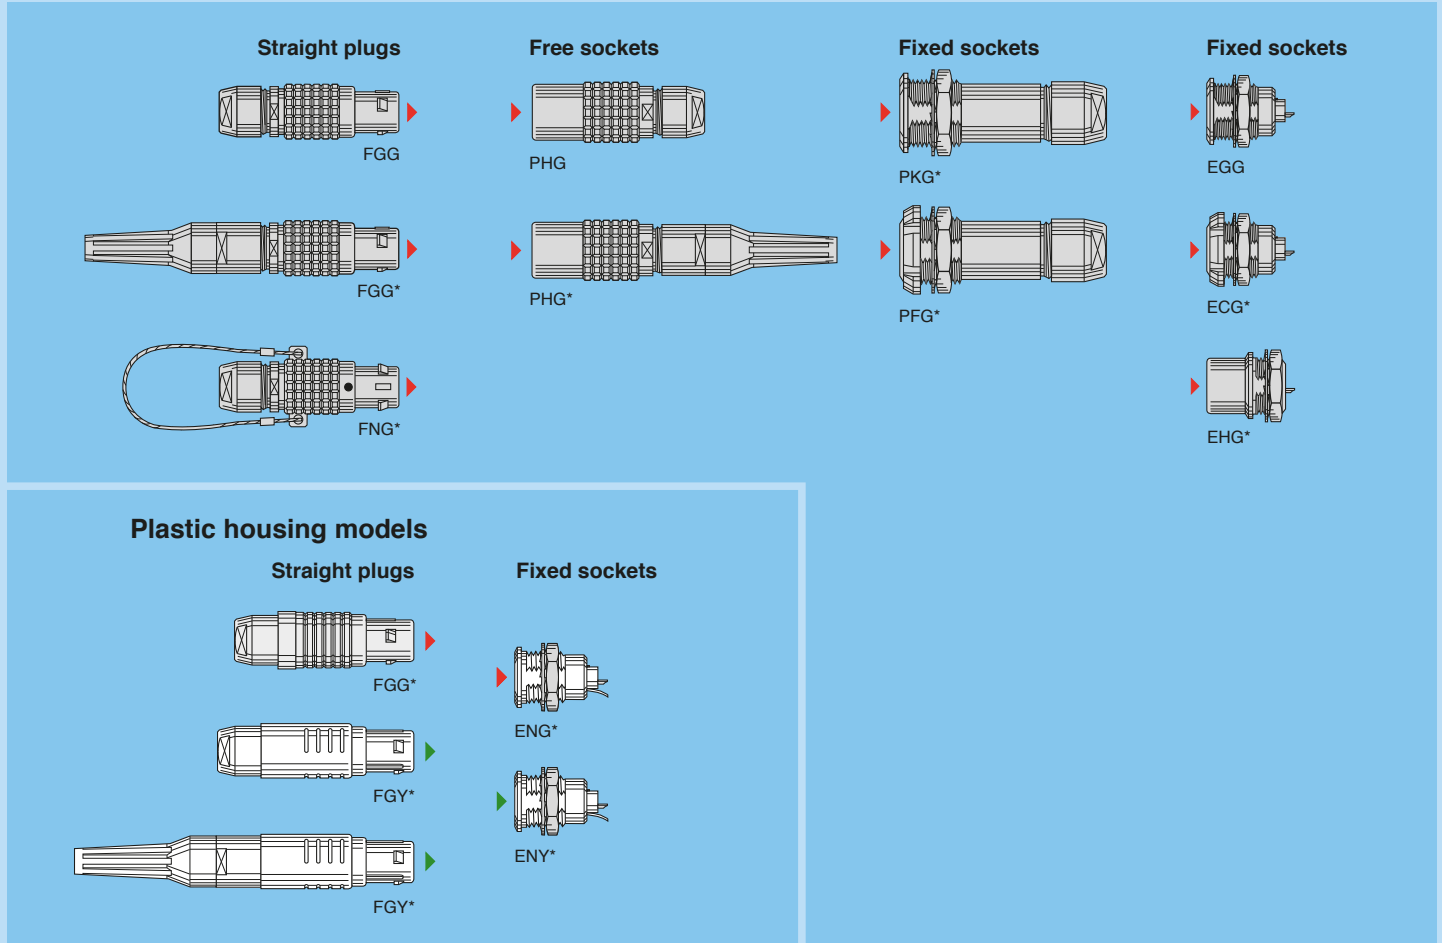

Series	Contact type	Diameter (mm)		Supplier	Material	Colour	Working temperature

# 2B-5B Series

The P1 fluidic contact has been designed to work in the 2B to 5B series. The P3 contact has been designed to work in the 5B series. The main features of these series are as follows:

- security of the LEMO Push-Pull self-latching system
  - the alignment key (G, A...F, Y and R) ensures excellent repeatability of performance during frequent matings
  - the P1 fluidic contact allows hybrid configuration in the 2B series and multi fluidic up to 10 channels in the 5B series.
- The possible outer cable diameters range from 4.0 to 25 mm.

Certain models and certain alignment key may not be available in all series. Please consult us.

## Part Number Example

**FGG.2B.P12.CLAD72Z** = Straight plug with key (G), 2B series, hybrid type to accept one P1 fluidic contact and 4 low voltage electrical contacts, chrome-plated brass housing, PEEK insulator, 4 male solder electrical contacts, type D collet system to suit a 6.1 to 7.0 mm diameter cable, and a nut for fitting a bend relief.

**Note: Connectors are always delivered without fluidic contact.**

<sup>1)</sup> The «Variant» position in the reference is used to indicate the presence of a collet nut for fitting the bend relief. The bend relief must be ordered separately (see page 12).

# 2K-5K Series

The P1 fluidic contact has been designed to work in the 2K-5K series. The P3 contact has been designed to work in the 5K series. The main features of these series are as follows:

- security of the LEMO Push-Pull self-latching system
  - specially designed for outdoors applications. All these models (except FX● model) are waterproof when mated and reach a protection index of IP66-IP68, according to the IEC 60529 standard
  - the alignment key (G, A...F and R) ensures excellent repeatability of performance during frequent matings
  - the P1 fluidic contact allows hybrid configuration in the 2K series and multi fluidic up to 10 channels in the 5K series.
- The 2K-5K series consists of ten models which will accept outer cable diameters ranging from 2.6 mm to 23.5 mm.

## Model Description

**EBG** Fixed socket with square flange, key (G) or keys (A...F and R), four holes fixing

**EEG** Fixed socket, nut fixing, key (G) or keys (A...F and R) (back panel mounting)

**EGG** Fixed socket, nut fixing, key (G) or keys (A...F and R)

**FGG** Straight plug, key (G) or keys (A...F and R), cable collet

**FGG** Straight plug, key (G) or keys (A...F and R), cable collet and nut for fitting a bend relief

**FXG** Fixed plug with round flange, four holes fixing, key (G) or keys (A...F and R)

**PEG** Fixed socket, nut fixing, key (G) or keys (A...F and R), cable collet and nut for fitting a bend relief (back panel mounting)

**PHG** Free socket, key (G) or keys (A...F and R), cable collet

**PHG** Free socket, key (G) or keys (A...F and R), cable collet and nut for fitting a bend relief

**PKG** Fixed socket, nut fixing, key (G) or keys (A...F and R), cable collet and nut for fitting a bend relief

\* Not show in this catalogue. Refer to our catalogue unipole-multipole

Certain models and certain alignment key may not be available in all series. Please consult us.

## Part Number Example

**FGG.3K.P20.CLZC76Z** = Straight plug with key (G), 3K series, multi fluidic with 2 times P1 contacts, chrome-plated brass housing, PEEK insulator, C type collet for 7.5 mm diameter cable, and nut for fitting a bend relief.

**Note: Connectors are always delivered without fluidic contact.**

<sup>1)</sup> The «Variant» position in the reference is used to indicate the presence of a collet nut for fitting the bend relief. The bend relief must be ordered separately (see page 12).

		D	10 to 15	GMA.4B.●●●.●●
<b>5B</b>	Z	D	11 to 15	GMA.4B.●●●.●●

### Bend relief for K series models with collet

Need to be ordered

	Ref.	Collet		Need to be ordered separately
		Type	Code	
<b>2K</b>	Z	C	40 to 85	GMA.2B.●●●.●●
		K	90 to 10	GMA.3B.●●●.●●
<b>3K</b>	Z	C	40 to 10	GMA.3B.●●●.●●
		K	11 to 15	GMA.4B.●●●.●●
<b>4K</b>	Z	C	50 to 15	GMA.4B.●●●.●●

Note: All dimensions are in millimetres.

### GM Bend relief

A bend relief made from thermoplastic polyurethane elastomer can be fitted over LEMO plugs and sockets that are supplied with nut for fitting such bend relief.

They are available in nine different colours that match with the GRA insulating washers (see unipole-multipole catalog). Use the part numbers shown below to order this accessory separately.

### Main characteristics

- Material: TPU (Thermoplastic Polyurethane)
- Temperature range in dry atmosphere: -40°C +80°C

Part number	Dimensions (mm)				Series
	Bend relief		Cable ø		
	A	L	max.	min.	
<b>GMA.2B.040.DG</b>	4.0	36	4.5	4.0	2B-2K
<b>GMA.2B.045.DG</b>	4.5	36	5.0	4.5	2B-2K
<b>GMA.2B.060.DG</b>	6.0	36	6.5	6.0	2B-2K
<b>GMA.2B.070.DG</b>	7.0	63	7.7	7.0	2B-2K
<b>GMA.3B.060.DG</b>	6.0	42	6.9	6.0	3B-3K
<b>GMA.3B.070.DG</b>	7.0	42	7.9	7.0	3B-3K
<b>GMA.3B.080.DG</b>	8.0	42	8.9	8.0	3B-3K
<b>GMA.4B.011.DG</b>	11.0	60	11.9	11.0	4B-4K-5B
<b>GMA.4B.012.DG</b>	12.0	60	13.0	12.0	4B-4K-5B
<b>GMA.4B.013.DG</b>	13.5	60	14.5	13.5	4B-4K-5B

Ref.	Colour	Ref.	Colour
<b>A</b>	blue	<b>N</b>	black
<b>B</b>	white	<b>R</b>	red
<b>G</b>	grey	<b>S</b>	orange
<b>J</b>	yellow	<b>V</b>	green
<b>M</b>	brown		

Note: the last letter «G» of the part number indicates the grey colour of the bend relief. For ordering a bend relief with another colour, see table above and replace the letter «G» by the letter of the required colour.

## Note

**Note**

## Product safety notice

**PLEASE READ AND FOLLOW ALL INSTRUCTIONS CAREFULLY AND CONSULT ALL RELEVANT NATIONAL AND INTERNATIONAL SAFETY REGULATIONS FOR YOUR APPLICATION. IMPROPER HANDLING, CABLE ASSEMBLY, OR WRONG USE OF CONNECTORS CAN RESULT IN HAZARDOUS SITUATIONS.**

### 1. SHOCK AND FIRE HAZARD

Incorrect wiring, the use of damaged components, presence of foreign objects (such as metal debris), and / or residue (such as cleaning fluids), can result in short circuits, overheating, and / or risk of electric shock. Mated components should never be disconnected while live as this may result in an exposed electric arc and local overheating, resulting in possible damage to components.

### 2. HANDLING

Connectors and their components should be visually inspected for damage prior to installation and assembly. Suspect components should be rejected or returned to the factory for verification. Connector assembly and installation should only be carried out by properly trained personnel. Proper tools must be used during installation and / or assembly in order to obtain safe and reliable performance.

### 3. USE

Connectors with exposed contacts should never be live (or on the current supply side of a circuit). Under general conditions voltages above 30 VAC and 42 VDC are considered hazardous and proper measures should be taken to eliminate all risk of transmission of such voltages to any exposed metal part of the connector.

### 4. TEST AND OPERATING VOLTAGES

The maximum admissible operating voltage depends upon the national or international standards in force for the application in question. Air and creepage distances impact the operating voltage; reference values are indicated in the catalog however these may be influenced by PC board design and / or wiring harnesses. The test voltage indicated in the catalog is 75% of the mean breakdown voltage; the test is applied at 500 V/s and the test duration is 1 minute.

### 5. CE MARKING

CE marking  means that the appliance or equipment bearing it complies with the protection requirements of one or several European safety directives.

CE marking  applies to complete products or equipment, **but not to electromechanical components, such as connectors.**

### 6. PRODUCT IMPROVEMENTS

The LEMO Group reserves the right to modify and improve to our products or specifications without providing prior notification.

### 7. **WARNING (Prop 65 State of California)**

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. LEMO products are exempt from proposition 65 warnings because they are manufactured, marketed, and sold solely for commercial and industrial use. For further information, please visit <https://www.lemo.com/quality/LEMO-Prop-65-compliance-declaration.pdf>.

## Disclaimers

LEMO works constantly to improve the quality of its products; the information and illustrations figuring in this document may therefore vary and are not binding. In any case, LEMO makes no specific warranty of merchantability, fitness for a particular purpose, third party components as such or included in assembly, non-infringement, title, accuracy, completeness, or security. The user is fully responsible for his products and applications using LEMO component.

In no event shall LEMO, its affiliates, officers, agents or employees be liable for any incidental, indirect, special or consequential damages in connection with the products or services provided by LEMO, including (without limitation) loss of profits or revenues, interruption of business, loss of use of the products or any associated equipment, materials, components or products, damages to associated equipment or in combination with other components, materials.

Reproduction of significant portions of LEMO information in LEMO data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices.
