

## Wire Wound SMD Power Inductors

### FEATURES

- Magnetic shield structure
- High current, low DC resistance
- Composite structure, ultra-low noise
- Good weldability and high heat resistance

### APPLICATIONS

- PDA/Laptop, Desktop/Server, etc
- High current POL converter
- High current power supply, battery powered equipment
- DC-DC conversion of distributed power systems
- DC-DC conversion for field programmable gate arrays

### PRODUCT IDENTIFICATION

### SHAPE AND DIMENSIONS

### RECOMMENDED PAD SIZE
