

# **Power MOSFET**

| PRODUCT SUMMARY          |                         |        |  |  |  |  |
|--------------------------|-------------------------|--------|--|--|--|--|
| V <sub>DS</sub> (V)      | -20                     | -200   |  |  |  |  |
| $R_{DS(on)}(\Omega)$     | V <sub>GS</sub> = -10 V | 1.5    |  |  |  |  |
| Q <sub>g</sub> max. (nC) | 22                      | 2      |  |  |  |  |
| Q <sub>gs</sub> (nC)     | 12                      | 2      |  |  |  |  |
| Q <sub>gd</sub> (nC)     | 10                      | 10     |  |  |  |  |
| Configuration            | Sin                     | Single |  |  |  |  |

#### **FEATURES**

- Dynamic dV/dt rating
- P-channel
- Fast switching
- · Ease of paralleling
- Simple drive requirements
- Material categorization: for definitions of compliance please see <a href="https://www.vishay.com/doc?99912"><u>www.vishay.com/doc?99912</u></a>

#### Note

\* This datasheet provides information about parts that are RoHS-compliant and / or parts that are non RoHS-compliant. For example, parts with lead (Pb) terminations are not RoHS-compliant. Please see the information / tables in this datasheet for details

### **DESCRIPTION**

Third generation power MOSFETs from Vishay provide the designer with the best combination of fast switching, ruggedized device design, low on-resistance and cost-effectiveness.

The TO-220AB package is universally preferred for all commercial-industrial applications at power dissipation levels to approximately 50 W. The low thermal resistance and low package cost of the TO-220AB contribute to its wide acceptance throughout the industry.

| ORDERING INFORMATION            |                |  |  |
|---------------------------------|----------------|--|--|
| Package                         | TO-220AB       |  |  |
| Lead (Pb)-free                  | IRF9620PbF     |  |  |
| Lead (Pb)-free and halogen-free | IRF9620PbF-BE3 |  |  |
