# **RCEC ISO**

Vishay MCB

ROHS COMPLIANT

## Power Resistors Cooled by Auxiliary Heatsink (Not Supplied) Thick Film Technology

### FEATURES

- · Cold system without external radiation
- High power / volume ratio
- Non-inductive
- Screw-on or fast-on outputs
- Material categorization: for definitions of compliance please see <u>www.vishay.com/doc?99912</u>

#### Note

<sup>(1)</sup> The higher of either value

#### **ENERGY ABSORPTION**

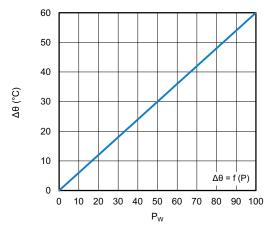

With single resistor, repetitive operation: 0.4 J/t = 50  $\mu$ s Other t values: consult us

2

RCEC ISO Vishay MCB

#### DISSIPATION

Temperature Rise as a Function of the Power Applied Overall Thermal Resistance 0.6  $^\circ\text{C/W}$  (See Assembly)

#### **MECHANICAL ASSEMBLY**

Head screw, low or normal height without washers.

Maximum tightening torque: 80 Ncm, mechanical mounting 130 Ncm, electrical connection

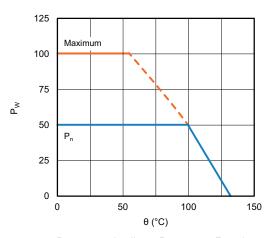

#### COOLING

The temperature of the heatsink may be maintained at the specified values with:

- Forced air ventilation
- · Internal circulation of a liquid cooling
- Heatsink contact surface: Ra 6.3 μm
- Evenness defect: 0.05 mm max.
- Surface temperature gradient (isotherm): 20 °C max.
- Thermal compound not supplied (resistance < 0.025 °C/W / 0.05 mm)

The user must select the thermal resistance of the heatsink according to the power applied.

# Disclaimer

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.
