# PIN 1 O -0 PIN 20 HEATSINK

### **DESIGN SUPPORT TOOLS AVAILABLE**

| PRIMARY CHARACTERISTCS                   |                               |  |  |  |
|--|-------------------------------|--|--|--|
| I <sub>F(DC)</sub>                       | 20 A                          |  |  |  |
| V <sub>RRM</sub>                         | 45 V                          |  |  |  |
| I <sub>FSM</sub>                         | 160 A                         |  |  |  |
| $V_F$ at $I_F$ = 20 A                    | 0.51 V                        |  |  |  |
| T <sub>OP</sub> max. (AC mode)           | 150 °C                        |  |  |  |
| T <sub>J</sub> max. (DC forward current) | 200 °C                        |  |  |  |
| Package                                  | D <sup>2</sup> PAK (TO-263AB) |  |  |  |
| Circuit configuration                    | Single                        |  |  |  |

### **FEATURES**

- Trench MOS Schottky technology
- · Low forward voltage drop, low power losses
- High efficiency operation
- FREE Meets MSL level 1, per J-STD-020, LF maximum peak of 245 °C
- · Material categorization: for definitions of compliance please see www.vishay.com/doc?99912

### **TYPICAL APPLICATIONS**

For use in solar cell junction box as a bypass diode for protection, using DC forward current without reverse bias.

### **MECHANICAL DATA**

Case: D<sup>2</sup>PAK (TO-263AB) Molding compound meets UL 94 V-0 flammability rating Base P/N-M3 - halogen-free, RoHS-compliant, and commercial grade

Terminals: matte tin plated leads, solderable per J-STD-002 and JESD 22-B102

M3 suffix meets JESD 201 class 1A whisker test

Polarity: as marked

Mounting Torque: 10 in-lbs maximum

| <b>MAXIMUM RATINGS</b> ( $T_A = 25 \text{ °C}$ unless otherwise noted)                |                                   |             |      |  |
|---|-----------------------------------|-------------|------|--|
| PARAMETER   | SYMBOL                            | VBT2045BP   | UNIT |  |
| Maximum repetitive peak reverse voltage   | V <sub>RRM</sub>                  | 45          | V    |  |
| Maximum DC forward bypassing current (fig. 1)   | I <sub>F(DC)</sub> <sup>(1)</sup> | 20          | А    |  |
| Peak forward surge current 8.3 ms single half sine-wave<br>superimposed on rated load | I <sub>FSM</sub> 160              |             | A    |  |
| Operating junction temperature range (AC mode)  | T <sub>OP</sub>                   | -40 to +150 | °C   |  |
| Junction temperature in DC forward current without reverse bias, $t \leq 1 \ h$       | T <sub>J</sub> (2)                | ≤ 200       | °C   |  |

Notes

<sup>(1)</sup> With heatsink

(2) Meets the requirements of IEC 61215 ed.2 bypass diode thermal test

# Disclaimer

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.
