

MABA-011063

Balun transformer, 2:1 step down flux coupled

MACOM's MABA-011063 is a 2:1 flux coupled transformer. This transformer is ideally suited for CATV and Broadband applications.

Features

- > 2:1 impedance
- > Excellent temperature stability
- > RoHS compliant and Pb free
- > 260° reflow compatible
- > Available on tape and reel
- > Surface mount
- > Suitable for all CATV, Broadband and FTTX applications
- > RoHS* compliant and 260°C reflow compatible

Applications

- > CATV, Broadband

Specifications

- > Min Frequency: 5 MHz
- > Max Frequency: 300 MHz
- > Insertion Loss: 0.8 dB
