

# Temperature & Humidity Sensor User Manual

★ Please read this manual carefully  
before use this sensor

# Specification

Size: 70\*24\*19mm

Battery: LRO3-1.5V / AAA\*2

Wireless Type: WiFi (2.4GHz) & BLE

Measure Range: -20 °C ~60°C, 0%-100%RH

Measure Accuracy:  $\pm 1$  °C,  $\pm 5\%$ RH

Low Power and Low Voltage: <2.2V

Working Mode: APP notification push

## How to use

Slide to open the back cover of battery compartment, take out the insulation sheet.

Note: When batteries are run out, please choose Alkaline battery instead of Carbon-zinc battery.

## Checklist before using the sensor

- Your phone has connected to a 2.4GHz Wi-Fi network.
- Your phone must be Android 4.4+ or iOS 8.0+.
- Your Wi-Fi router is MAC-open.
- The numbers of devices connected to Wi-Fi router DON'T reach the limit.

## How to set up

1. First scan QR code below, or Search “CozyLife” APP in Google Play Store or APP Store

2. Register the APP with email address, or use a trial account to use it, then login in.

3. Turn on Bluetooth in phone. Click  to add device.

Note: If device is not in factory mode, please long press Reset Button for 3-4 seconds until the LED blinks slowly.

4. In popped window, key in your Wi-Fi router password. Wait a while and the set-up progress is done.

## Functions

### 1. Accurate Measurement

About 30 minutes after Wi-Fi configuration, the temperature and humidity is closer to the actual ambient environment, so the readings are more accurate. And please keep the sensor away from any heat sources.

## 2. Intelligent Linkage

When the ambient environment change, you can execute intelligent linkage. For example, when the room temperature surpass 35°C, the air-conditioner will turn on automatically, or when the humidity is lower than 20% RH, the humidifier will spray.

## 3. Temp & Humidity Alert

You can preset the range of temperature and humidity in the configuration, when the temperature and humidity reaches the range, it will push alert message via app.

## 4. Temperature Unit Selections in APP

You can choose °C or °F as temperature unit through app.

## 5. Third-party Voice Control

Device works with Alexa, Google assistant.
