## 3SE5162-0CB01

Position switch 3SE5162 Metal enclosure XL, 56 mm wide Plain plunger made of stainless steel Device connection 3 x (M20 x 1.5) 2 x (1 NO/1 NC) Quick action contacts IP66/IP67

product brand name	SIRIUS
product designation	Mechanical position switches
product type designation	3SE5
manufacturer's article number	
<ul> <li>of the supplied basic switch</li> </ul>	3SE5162-0CA00
<ul> <li>of the supplied actuator head for position switches</li> </ul>	<u>3SE5000-0AB01</u>
<ul> <li>of the supplied switching contacts</li> </ul>	1x 3SE5000-0CA00, 1x 3SE5060-0CA00
<ul> <li>of the supplied empty enclosure with cover</li> </ul>	<u>3SE5162-0AA00</u>
suitability for use safety switch	Yes
General technical data	
product function positive opening	Yes
insulation voltage rated value	400 V
degree of pollution	class 3
surge voltage resistance rated value	6 kV
protection class IP	IP66/IP67
shock resistance	
<ul> <li>according to IEC 60068-2-27</li> </ul>	30g / 11 ms
vibration resistance according to IEC 60068-2-6	0.35 mm/5g
mechanical service life (switching cycles) typical	5 000 000
electrical endurance (switching cycles) at AC-15 at 230 V typical	100 000
electrical endurance (switching cycles) with contactor 3RH11, 3RT1016, 3RT1017, 3RT1024, 3RT1025, 3RT1026 typical	5 000 000
Electrical operating cycles in one hour with contactor 3RH11, 3RT1016, 3RT1017, 3RT1024, 3RT1025, 3RT1026	6 000
thermal current	10 A
material of the enclosure of the switch head	metal
reference code according to IEC 81346-2	В
continuous current of the C characteristic MCB	1 A; for a short-circuit current smaller than 400 A
continuous current of the quick DIAZED fuse link	10 A; for a short-circuit current smaller than 400 A
continuous current of the DIAZED fuse link gG	6 A
active principle	mechanical
repeat accuracy	0.05 mm
Substance Prohibitance (Date)	07/01/2006
minimum actuating force in directions of actuation	30 N
length of the sensor	111.5 mm
width of the sensor	56 mm
design of the switching contact	mechanical
operating frequency rated value	50 60 Hz

number of NC contacts for auxiliary contacts         number of NO contacts for auxiliary contacts         operational current at AC-15         • at 24 V rated value         • at 125 V rated value         • at 240 V rated value         • at 400 V rated value         • at 400 V rated value         • at 24 V rated value         • at 24 V rated value         • at 24 V rated value         • at 25 V rated value         • at 250 V rated value         • at 400 V rated value         • at 400 V rated value         • at 250 V rated value         • at 400 V rated value         design of the housing         material of the enclosure         coating of the enclosure         design of the housing according to standard         Drive Head         design of the actuating element         standard-compliant actuator head         shape of the switch head         d	2 2 6 A 6 A 6 A 4 A 3 A 0.55 A 0.27 A 0.12 A without block, wide metal cathodic dip coating No Rounded plunger, high-grade steel plunger EN 50041, design B

at 250 V rated value     at 400 V rated value     design of the interface for safety-related communication     Enclosure     design of the housing     material of the enclosure     coating of the enclosure     design of the housing according to standard     Drive Head     design of the actuating element     standard-compliant actuator head     shape of the switch head	0.27 A 0.12 A without block, wide metal cathodic dip coating No Rounded plunger, high-grade steel plunger
at 400 V rated value     design of the interface for safety-related communication     Enclosure     design of the housing     material of the enclosure     coating of the enclosure     design of the housing according to standard     Drive Head     design of the actuating element     standard-compliant actuator head     shape of the switch head	0.12 A without block, wide metal cathodic dip coating No Rounded plunger, high-grade steel plunger
design of the interface for safety-related communication         Enclosure         design of the housing         material of the enclosure         coating of the enclosure         design of the housing according to standard         Drive Head         design of the actuating element         standard-compliant actuator head         shape of the switch head	without block, wide metal cathodic dip coating No Rounded plunger, high-grade steel plunger
Enclosure         design of the housing         material of the enclosure         coating of the enclosure         design of the housing according to standard         Drive Head         design of the actuating element         standard-compliant actuator head         shape of the switch head	block, wide metal cathodic dip coating No Rounded plunger, high-grade steel plunger
design of the housingmaterial of the enclosurecoating of the enclosuredesign of the housing according to standardDrive Headdesign of the actuating elementstandard-compliant actuator headshape of the switch head	metal cathodic dip coating No Rounded plunger, high-grade steel plunger
material of the enclosurecoating of the enclosuredesign of the housing according to standardDrive Headdesign of the actuating elementstandard-compliant actuator headshape of the switch head	metal cathodic dip coating No Rounded plunger, high-grade steel plunger
material of the enclosurecoating of the enclosuredesign of the housing according to standardDrive Headdesign of the actuating elementstandard-compliant actuator headshape of the switch head	cathodic dip coating No Rounded plunger, high-grade steel plunger
design of the housing according to standard Drive Head design of the actuating element standard-compliant actuator head shape of the switch head	No Rounded plunger, high-grade steel plunger
design of the housing according to standard Drive Head design of the actuating element standard-compliant actuator head shape of the switch head	No Rounded plunger, high-grade steel plunger
Drive Head design of the actuating element standard-compliant actuator head shape of the switch head	
design of the actuating element standard-compliant actuator head shape of the switch head	
standard-compliant actuator head shape of the switch head	
shape of the switch head	
	rounded
	positive opening
circuit principle	snap-action contacts
number of switching contacts safety-related	2
Connections/ Terminals	-
type of electrical connection	screw-type terminals
type of connectable conductor cross-sections	sciew-type terminals
solid	1x (0.5 1.5 mm²), 2x (0.5 0.75 mm²)
<ul> <li>finely stranded with core end processing</li> </ul>	1x (0.5 1.5 mm <sup>2</sup> ), 2x (0.5 0.75 mm <sup>2</sup> )
at AWG cables solid	1x (20 16), 2x (20 18)
at AWG cables solid	1x (20 16), 2x (20 18)
cable entry type	3x (M20 x 1.5)
Communication/ Protocol	3X (IVIZO X 1.3)
design of the interface	without
	without
Ambient conditions	
ambient temperature	05
during operation	-25 +85 °C
during storage	-40 +90 °C
explosion protection category for dust	none
Installation/ mounting/ dimensions	
mounting position	any
fastening method	screw fixing
Certificates/ approvals	
General Product Approval	
Functional	Test Certificates other
