

327-J

Jumper
Accessories

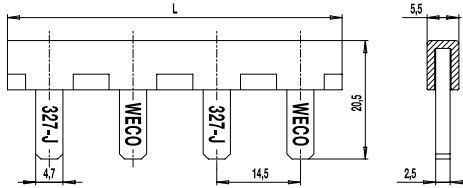

General Information

Pitch	14,5 mm
No. of poles	2 - 12
Usable with	all types of series 326, 327, 327-FU

Material

Moulding	PVC, red
Jumpers	Copper alloy, bare

The jumper 327-J electrically bridges adjacent poles of series 326 and 327 terminals.

It is available in 14 mm pitch with 2 to 12 poles.

Just like the lead, it is connected to the clamping units.

The jumper shell is insulated.

Part Numbers

No. of poles	327-J	Length	PU
2	12.451.327	29,00	100
3	13.451.327	43,50	100
4	14.451.327	58,00	100
5	15.451.327	72,50	100
6	16.451.327	87,00	100
7	17.451.327	101,50	50
8	18.451.327	116,00	50
9	19.451.327	130,50	50
10	20.451.327	145,00	50
11	21.451.327	159,50	50
12	22.451.327	174,00	50
