

The Bulgin SSMA connector series are micro-miniature, precision connectors with excellent electrical performance. Available for both semi-rigid and flexible coaxial cables, they are ideal for high-frequency applications.

The SSMA connector range offers a smaller version of the SMA connector and is widely used in microwave communications. It has stainless steel construction that provides mechanical ruggedness for high reliability in a compact size. These connectors are widely used in Radar, Military, Aerospace, Instrumentation, Test and Measurement and Satellite Communication Equipment (SATCOM).
