

## SINGLE BRIDGE RECTIFIERS

**Features**

- ◆ Glass Passivated Chip Junction
- ◆ Low forward voltage drop
- ◆ High current capability
- ◆ High surge current capability
- ◆ The Plastic material has UL flammability 94V-0

**KBP** **Mechanical Data****Case :** JEDEC KBP Molded plastic body**Terminals :** Solder plated, solderable per MIL-STD-750, Method 2026**Polarity :** Polarity symbol marking on body**Mounting Position :** Any**Weight :** 0.050 ounce, 1.52 grams**Maximum Ratings And Electrical Characteristics**

Ratings at 25°C ambient temperature unless otherwise specified.

Single phase half-wave 60Hz, resistive or inductive load, for capacitive load current derate by 20%.

| Parameter   | SYMBOLS  | MDD<br>KBP4005 | MDD<br>KBP401 | MDD<br>KBP402 | MDD<br>KBP404  | MDD<br>KBP406 | MDD<br>KBP408 | MDD<br>KBP410 | UNITS            |
|---|--|----------------|---------------|---------------|----------------|---------------|---------------|---------------|------------------|
| Marking Code  |  |                |               |               |                |               |               |               |                  |
| Maximum repetitive peak reverse voltage   | V <sub>RRM</sub>   | 50             | 100           | 200           | 400            | 600           | 800           | 1000          | V                |
| Maximum RMS voltage   | V <sub>RMS</sub>   | 35             | 70            | 140           | 280            | 420           | 560           | 700           | V                |
| Maximum DC blocking voltage   | V <sub>DC</sub>  | 50             | 100           | 200           | 400            | 600           | 800           | 1000          | V                |
| Maximum average forward output rectified current at T <sub>c</sub> =100°C (With heatsink)<br>(Without heatsink) | I <sub>(AV)</sub>  |                |               |               |                | 4.0           |               |               | A                |
| Peak forward surge current 8.3ms single half sine-wave superimposed on rated load (JEDEC Method)                | I <sub>FSM</sub>   |                |               |               |                | 90            |               |               | A                |
| Maximum instantaneous forward voltage drop per bridge element at 4.0A   | V <sub>F</sub>   |                |               |               | 1.1            |               |               |               | V                |
| Maximum DC reverse current TA=25°C at rated DC blocking voltage TA=125°C  | I <sub>R</sub>   |                |               |               | 10             |               |               |               | µA               |
|   |  |                |               |               | 1              |               |               |               | mA               |
| I <sup>2</sup> t Rating for fusing (3ms≤t≤8.3ms)  | I <sup>2</sup> t   |                |               |               | 35             |               |               |               | A <sup>2</sup> S |
| Typical Junction Capacitance per element (Note 2)   | C <sub>j</sub>   |                |               |               | 50             |               |               |               | pF               |
| Typical Thermal Resistance (Note 2)   | R <sub>θJA</sub><br>R <sub>θJC</sub><br>R <sub>θJL</sub> |                |               |               | 55<br>14<br>20 |               |               |               | °C/W             |
| Operating junction temperature range  | T <sub>J</sub>   |                |               |               | -55 to +150    |               |               |               | °C               |
| Storage temperature range   | T <sub>STG</sub>   |                |               |               | -55 to +150    |               |               |               | °C               |

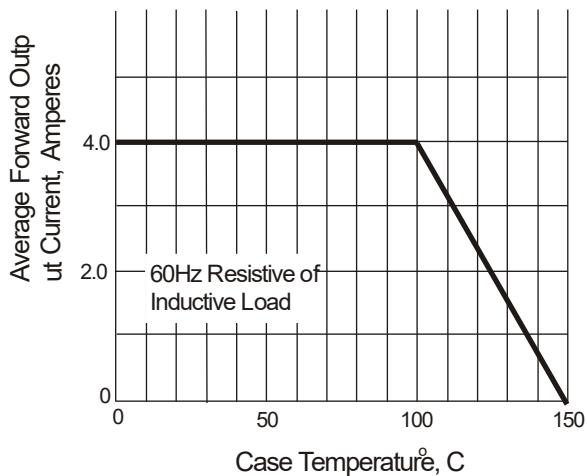

Note:1. Mounted on glass epoxy PC board with 1.3mm<sup>2</sup> solder pad.

2. Measured at 1.0 MHz and applied reverse voltage of 4.0V DC.
