#### Item description

#### Male connector/plug WINSTA® MIDI with protection against mismating

The WINSTA® MIDI male connector/plug with protection against mismating are compact but outstanding PCB terminal blocks. They offer convenient operation and the greatest possible flexibility for installation. Our pluggable PCB connectors give you a universal pluggable connection system for your devices that meets all the conditions for a robust device connection. The coding options reduce installation errors, allowing fast, secure wiring of all components. B coding enables the WINSTA® MIDI pcb connectors to be used for control in applications in the domains of automation, robotics, and mechanical engineering. The rated current and voltage are important criteria for selecting a pcb connectors: They provide information about possible domains of use and applications. This product has a current rating of 25 A – as a result it is also suitable for robust loads. The WINSTA® MIDI product line offers total flexibility for the installation. With its Push-in CAGE CLAMP® spring pressure connection technology, it achieves error-free, time-saving installation and offers flexibility for meeting an enormous variety of installation requirements.

# Push-in CAGE CLAMP® spring pressure connection technology – pluggable installation instead of laborious screw connections!

WINSTA® is the pluggable connection system that is optimally tailored to the strict requirements of electrical installation. It offers error-free installation of cables and components, quickly and reliably. Now you can also lower installation costs without compromising quality and safety: with marking eliminates the need for servicing and prevents unnecessary downtime.

- effective protection against mismating
- simple circuits
- with B coding for use in process automation, such as lighting technology
- convenient installation and commissioning

## Data Notes

Variants: Other pole markings

Other versions (or variants) can be requested from WAGO Sales or configured at https://configurator.wago.com/.
