## Features

- RoHS compliant*
- Leadless 0603 (1608) chip

■ High speed switching

## Applications

- Cellular phones
- PDAs
- Desktop PCs and notebooks
- Digital cameras
- MP3 players

## CD0603-S01575 Switching Chip Diode

## General Information

The markets of portable communications, computing and video equipment are challenging the semiconductor industry to develop increasingly smaller electronic components.

Bourns offers small-signal high-speed Switching Diodes for switching digital signal applications, in compact chip package 0603 size format, which offers PCB real estate savings and are considerably smaller than competitive parts. The Switching Diodes offer a Repetitive Peak Forward Current of 200 mA and a reverse voltage of 75 V . The diodes are RoHS compliant and are compatible with lead-free manufacturing processes, conforming to many industry and government regulations on lead-free components. Bourns ${ }^{\circledR}$ Chip Diodes conform to JEDEC standards, are easy to handle on standard pick and place equipment and their flat configuration minimizes roll away.

## Absolute Maximum Ratings (@ $\mathbf{T}_{\mathrm{A}}=25^{\circ} \mathrm{C}$ Unless Otherwise Noted)

| Parameter | Symbol | Value | Unit |
